Attachment: Replacement Sheet

**REMARKS**

Claims 1-30 are pending. Applicants note with appreciation the indication of allowable subject matter of claims 1-30.

In response to *Ex parte Quayle* Office Action, Applicants have amended the specification and the drawings as set forth above. It is respectfully requested that the Examiner withdraw the objections to the specification and the drawings.

Claims 1-30 were objected to because of the informalities. Applicants respectfully submit that the amendments made to the claims 1-6, 9-10, 13, 15, 17-18 and 21-30 overcome this objection.

Regarding claims 24-26, Applicants respectfully submit that since “equipment” is an uncountable noun, “Portable equipment” does not need “A” before “portable” as required by the Examiner.

Regarding claims 27 and 28, Applicants respectfully submit that these claims are directed to a manufacturing method of a high frequency receiver and portable equipment, respectively. In this regard, the Examiner’s attention is directed to the step of “allowing a memory to store a signal that is outputted when a quality of a signal output from the output terminal is most excellent” of claims 27 and 28, which clearly indicates that the method is for manufacturing a high frequency receiver and portable equipment.

Accordingly, it is respectfully requested that the Examiner withdraw the objection to the claims.

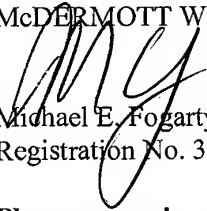

**CONCLUSION**

Having fully responded to all matters raised in the *Ex parte Quayle* Office Action, Applicants submit that all claims are in condition for allowance, an indication for which is respectfully solicited. If there are any outstanding issues that might be resolved by an interview or an Examiner's amendment, the Examiner is requested to call Applicants' attorney at the telephone number shown below.

To the extent necessary, a petition for an extension of time under 37 C.F.R. § 1.136 is hereby made.
